# Elementary News

By Olivia Schneidecker

The numbers in Eddyville's elementary have increased substantially. The classes are larger, but our teachers are very enthusiastic and excited for this 2011-2012 school year. Our elementary teachers told us in their interviews what their favorite part of being a teacher was, "Making a difference in a child's life." –Mrs. Moore "Seeing the kids when something clicks in their head." –Jackie "Making a difference, and making it a better place." –Mr. Bedell. All of the teachers gave quotes and they just love spending time with the children and having fun with them.

## Instructions

Draw ghost eyes and mouths on the jugs. **Tip:** Leave the caps on while you do this, so the jugs don't dent.

Use the craft knife to cut a half-dollar-size hole in the back of each jug (a parent's job).

Arrange the ghosts near each other and string the lights between them, stuffing several bulbs into each of the jugs.

## Holiday Hobby Hour!

Come and enjoy the music and crafts on December 15<sup>th</sup>!

WANTED: Parents who are willing to provide a craft for 7-10 students. Donations are also welcome and needed. Contact Debby.

# Middle School News

By Bradi McGuire

More and more middle school students are getting involved in unique classes. One such class is African drumming. Mr. Smith has been teaching drumming for eleven years. Another class available is Spanish. Mrs.

Halverson, who has made this opportunity possible for students, has also taught in Chile. Students love the middle school program. In an interview with several students, it has been made clear that they love pizza.

# High School News

By Olivia Schneidecker

This year there have been many changes and additions to Eddyville High School. We have new schedules, new teachers, and many new students. There is a new block schedule we are trying this year. High school students have four periods a day and each is 90 minutes long. We have new staff at Eddyville High School. Joining to our wonderful staff we have Mrs. Kellison.

Mrs. Kellison teaches social studies and language arts. When we asked Mrs. Kellison what her favorite part about teaching was she replied, "kids, that's the best part." Bob is teaching our schools STRUT class this year. STRUT stands for Students Recycling Used Technology. In this class Mr. Pearson's students get access to computers that are donated to the class; they are fixed and used throughout the school. Mr. Pearson said when we spoke to him, "The kids teach me about new technology and the newest games." to which we replied, "I heard you weren't good at any of the games." Bob has been running the STRUT class for fifteen years. We talked to six high school students about their experience so far. We spoke to a returning student. Brie Johnson, a freshman told us that high school is very different but she is enjoying t. A new freshman at Eddyville, Jasper, said she loves it here and is also liking high school. Next we interviewed a returning sophomore. Gage said the schedule is nice with the block classes and we have many new kids this year. Sarah James told us she is really enjoying the teachers but doesn't like the block classes. Next we talked to Kelsey Gilseth, a junior, about the school. "I like all of my classes this year. We have new teachers and more independence." Last we talked to Senior Corie McBride, "I think once the college classes start I will be more organized with classes at school. It doesn't feel different being a senior yet, but I think it will change when I throw my hat in the air. "

**Looking for help?**

We are starting a  
Community Service Club at  
Eddyville Charter School. If you or  
anyone you know needs a hand  
please contact us.

# College

By Nicole Borrego

This year, thirteen juniors and seniors are attending Oregon Coast Community College. They are taking basic college classes such as writing and math. Sandi La Roche is in charge as the Early College Opportunity Coordinator. She has worked very hard to make this happen. The thing she loves most about working with kids is, "...giving the opportunity for kids to grow emotionally and academically."

In order to make the college and school at Eddyville work, the schedule has been changed to A and B days. B days are when the kids will be at the college. A days will include regular classes at the high school.

This year has majorly changed the way students and staff can think about different options in schools. We are striving towards higher goals and hope to make this year work differently and more successfully.

# Sports

By Bradi McGuire

After a gracious donation by the Confederated Tribes of the Siletz Indians, Coach Mereline Schneidecker purchased various pieces of volleyball equipment. This year, Mrs. Schneidecker just wants a successful season and in her interviews she explained the biggest challenge was McKenzie, and the rivals as both Alsea and Siletz. She also continued by saying,

“This year we have a lot of returning girls who have experience, and the skill level is very high.”  
 Good luck Lady Eagles! We hope you get lots of wins.

| Debby          | likes pizza                              |
| Landon         | Professional Calligrapher                |
| Mr. Tuana      | Likes to row crew                        |

By Nicole Borrego

As you may have noticed, there are some new staff at Eddyville Charter School. Ms. Kellison, one of the new teachers at the school, teaches social studies, and language arts. Although its only her second year as a teacher, we are confident she will be a great addition. Another new teacher is Mrs. Wold. She teaches high school literature. This is her forty ninth year teaching.

This year we also have a new facilities manager, Landon. He recently moved here from Bend. Landon has already made many improvements around the school; he built Lisa's new counter in the front office. He says, "I love it here. It's a great place." To his summer work crew he would like to add, "You're doing a great job, keep up the good work."

(ANSWERS: Jackie- Knows all the hiding spots; Bob-1.5 eyebrow; Mr. Smith-Rock Hound; Mrs. Wold- Row crew; Ms. Sarni- never taught health; Kriz- Track star; Mrs. Moore- Vball star; Newman-calligrapher; Halverson-without running water; Kelison-likes art; Bidell- likes pizza; Kilduf- Crater Lake; Debby- has five grandchildren; Landon- is a computer nerd; Tuana-Body surfer)
