

WELCOME TO ALGEBRA 1!
2021-2022

My name is Mike Ulstad and I will be your child's math teacher this upcoming year!

Homework: Homework will be given most nights. You can find your student's unit assignment sheet in the front of their spiral or on my class website. Homework will be checked in daily (mostly) at the start of each period. Assignments will not be counted missing until the end of unit test. Students are responsible for showing me their late work.

Grades: will be based 60% assessments and quizzes and 40% on homework. Homework will be given full credit only if work is shown. Students will have the opportunity to re-take assessments (or sections of assessments) one time, no matter their grade.

Book: Please keep track of your book! They are expensive to replace, and must be taken care of.

Spiral Notebook: Your student's spiral notebook will need to go home and come back to school each day. This notebook will include notes from class, as well as homework, which should be clearly labeled.

Contact: Please contact me with any questions or concerns, the best way to reach me is via email at: Michael.ulstad@lincoln.k12.or.us

Classroom Website: Students will be put into the Canvas classroom during the first week of school. This is the link to access Canvas:
