3. Elevated Levels of Lead in Water Used for Drinking or Food Preparation

All school districts, education service districts, and public charter schools are required to test for and eliminate exposure to elevated levels of lead in water used for Drinking and Food Preparation through either remediation or eliminating access, according to OAR 333-061-0400 and OAR 581-022-2223. In conformance with those administrative rules, Eddyville Charter School certifies the following:

1. All testing was done according to the testing requirements in OAR 333-061-0400;
2. All samples were analyzed by a lab accredited by Oregon Health Authority to test for those materials; ALG.
3. All water fixtures required to be tested under OAR 333-061-0400 were tested for elevated levels of lead in accordance with the testing schedule developed by the Oregon Health Authority; and
4. The testing schedule for each building covered by this plan is set forth below:

| Facility Name | Year of Last Test (year only) | Next scheduled test (per 6 year schedule) (year only) | Schedule or Exemption Reason |
|---------------------------------|-------------------------------|---|------------------------------|
| <i>Eddyville Charter School</i> | <i>2019</i> | <i>September 2019</i> | <i>Every 6 months</i> |

ECS has designed and implemented a water testing plan in accordance with direction from ODE and Oregon Health Authority. As recommended, ECS follows the following:

1. Identify sources of lead: Schools and childcare facilities should test all taps used for drinking or food preparation in the building to identify any lead problem. Follow the EPA's guidance to ensure that samples are collected properly and from the right places.
2. Stop access: Prevent access to water taps that have more than 20 ppb of lead. This should include shutting off tap, covering water fountains, and providing bottled water to students and staff.
3. Communicate: make results from test for lead in water available to students, families, and the community as quickly as possible.
4. Mitigate and correct: Replace three sources of lead in building plumbing. Again EPA's guidance should be followed.

All results will be communicated immediately to the patrons, staff, and public by posting on the ECS website www.eddyvillecharterschool.org, through the mail, and directly to the board of directors.

4. Lead Paint

In order to comply with the United States Environmental Protection Agency's Renovation, Repair and Painting Program Rule, the district will only contract with certified lead based paint renovation contractors licensed by the Oregon Construction Contractors Board. Currently,

however, ECS's head custodian Dawna McLain is a member certified under the renovating, Repair, and painting Rules in lead safe work practice and meet the minimum requirements.

5. Asbestos

Eddyville Charter School complies with the federal Asbestos Hazard Emergency Response Act (AHERA). All required asbestos management plans are available for viewing by submitting a request to the Responsible Person. Testing is conducted by ETTNW.

6. Radon

Eddyville Charter School has developed a radon plan as required by ORS 332.167. Community members can access a copy of the radon plan on the school's website. Test results will be made public and are available here within 5 days of receiving results. ECS will contract with a certified environmental testing firm to design and conduct its comprehensive Radon testing procedures. Status of Testing: ECS is scheduling all radon testing as outlined in this plan. Results will be posted on the school website, by email to the Board of Directors, and made available in hard copy upon request at the office.

7. Integrated Pest Management

Eddyville Charter School has adopted an Integrated Pest Management (IPM) plan as required by ORS 634.700 through 634.750. ECS follows LCSD's plan, trains staff through Safe Schools, and refers to LCSD Maintenance. Community members can access a copy of the IPM plan on the school's website.

8. Carbon Monoxide Detectors

Eddyville Charter School certifies that all buildings subject to the Healthy and Safe Schools Plan comply with the carbon monoxide detection standards in the state building code that was in effect when the building was originally constructed or as required by building code due to addition, upgrade, or remodel.

9. Test Results Publication

Eddyville Charter School is complying with the requirement to provide access to test results, as defined by OAR 581-022-2223 within 10 business days as defined by ORS 332-334. Test results can be found on the ECS website at www.eddyvillecharterschool.org.

Additionally, copies of all test results are available at the office in hard copy format. ECS will also alert members of its communities as to where they can access test results using current district email lists and programs. Please contact appropriate district personnel to be added to current district email lists and programs.

I certify that the above information is true and accurate to the best of my knowledge.
