

COVID – Exception Protocols

Weekly COVID Testing

I will register for the weekly COVID testing kit as a mitigation factor and requirement to volunteer at ECS with my approved religious or medical exception.

Beginning the week of Oct. 18, 2021, I will test each Wednesday and mail test kit to the lab via US Post Office or drop off at WVT in Corvallis. Results must be received and sent to Missy Endicott and Stacy Knudson by 8:00am, Monday, of the work week.

In the case of a positive test, you will be excluded for 10 days per OHA requirement.

In the case of a negative test, you may volunteer that week in addition to wearing your mask at all times and provide additional social distancing where possible. N-95 masks are available per your request.

Failure to submit test results to ECS by Monday morning, will prohibit your volunteer access until you can provide your test.

Failure to share test results/non-communication regarding results with Missy and Stacy by the deadline will result in the dismissal process being initiated.

I, _____ understand the weekly testing protocols and procedures required due to my medical/religious exception being granted by ECS administration.
